

Jefferson Clinton B, Software Jr.Quality Engineer

Chennai, Tamil Nadu 600040 || 9790912357 || jeffersonclintonbenny@gmail.com

Summary

Quality-focused QA Engineer with hands-on experience at Amazon in manual testing, test design, defect management, and basic automation using Selenium IDE. Proven ability to improve testing efficiency, increase coverage, and ensure high-quality releases. Strong foundation in Java, Python, databases, and frontend technologies.

Experience

Jul 2024 – Present *Associate Quality Service, Amazon* Chennai, India

- Supported QA and development teams across Amazon Health and Kindle, contributing to **high-quality releases impacting thousands of users globally**.
 - Owned end-to-end testing for the **“Cards” component** in the Kindle Store, ensuring **~99% defect-free releases** across multiple regions.
 - Designed and executed **150+ test cases** (functional, regression, smoke, sanity), improving **test coverage by ~30%**.
 - Built an **automated payment flow using Selenium IDE**, reducing **manual testing effort by ~40%** and speeding up validation cycles.
 - Led defect triage by identifying, logging, and tracking **100+ defects**, reducing **bug resolution time by ~25%**.
 - Performed feature-flag and hotfix validation, helping reduce **production defects by ~20%**.
 - Maintained test documentation and monitored quality metrics, increasing **release confidence and stability**.
-

Technical Skills

Programming – Java

Cloud - Foundation knowledge in GCP, AWS

Database - MySQL, MongoDB.

Testing - Functional and Non- Functional Testing

Frontend - HTML, CSS, JavaScript

Version Control – Git, Github

Education

Nov 2020 – Apr 2024

B.E Computer and Communication,
Panimalar Engineering College.
CGPA – 8.4

Chennai, India

Projects

Jan 2023 – Apr 2024	<i>SLRT (Sign Language Recognition and Translation)</i>	Chennai, India
- Developed a system to recognize and translate sign language with ~85% accuracy. - Collaborated with a team of 4 to build a working prototype improving accessibility for visually challenged users.		
Jul 2024 – Dec 2024	<i>GCN, Amazon Health</i>	Chennai, India
- Contributed to GCN feature enabling patients to connect with doctors within 15 minutes, improving user accessibility and engagement. - Led testing of core flows and 20+ edge cases, ensuring high feature reliability. - Built an internal automation flow for payment test data generation, reducing manual dependency by ~50%. - Identified and tracked critical defects pre-release, preventing potential production issues.		
Jan 2025 – Present	<i>Cards, Amazon Kindle</i>	Chennai, India
- Sole QS owner for the Cards component across Kindle Store platforms, ensuring consistent quality across global releases. - Validated UI, content, and purchase workflows, contributing to smooth customer experience with minimal production issues. - Created and maintained 80+ regression test cases, improving test reliability and coverage. - Automated key workflows using Selenium IDE, reducing repetitive testing effort by ~35%. - Supported feature launches and migration testing, ensuring zero critical defects during releases.
